

Flying Around the USA

In 2011, we have been working hard to prepare for the public launch of our Empty Flight Plan.

This launch will greatly expand our reach potential, ultimately around the world, giving our network of churches, ministries, and missionaries the opportunity to share Jesus Christ. The Empty Flight plan has taken us to Boise, Miami, Washington D.C., Dallas, and Canadian. Here are some examples of how this idea has blessed others.

“During a stressful, complicated legal situation, MWA's Empty Flight Plan saved the day.”

— **Hiram Sasser, Liberty Institute (Dallas, Texas)**

Jim Allen, while serving with a mission team, was wrongly detained in a Haiti jail in 2009. Liberty Institute was called upon for legal counsel to represent him and work for his release. Ministry Wings Aviation worked with them both, giving empty seat updates. Also, business jet owners, Jerry and Margaret Hodge provided their aircraft's empty seats. The aircraft's schedule was available to provide travel in a critical and tense situation. At the end of it all, the Lord was able to provide three legs of much needed transportation including Jim's release flight home to Amarillo with his wife and legal team at his side. Whether your calling is in aviation, legal litigation, or business; the Lord ultimately is working to put it all together for His purpose and will.

“I'm blown away by how God orchestrated putting a flight together and how Ministry Wings Aviation found a flight through the U-Haul company. It's just amazing.”

— **Roland Taylor II, Amarillo, Texas**

Roland's 4 year old son, William, has been fighting for his life with inoperable brain aneurysms. Ministry Wings Aviation was able to provide a flight to Dallas for the boy and his mother graciously provided through U-Haul in one of their company aircraft. A second flight was later provided for the Father to unite him with his boy in a critical circumstance.

“What a creative way to serve the Body of Christ. I am deeply grateful for all they do.”

— **Sheila Walsh, Author & Speaker**

The Canadian Ministerial Alliance had been praying for some time that the Lord would provide a plane and pilot to fly internationally known speaker, Sheila Walsh, to their upcoming conference. God used MWA to answer that prayer by providing her and her family round-trip travel between her home and the conference. We shared in the blessing received by the 600+ attendees who came to hear her speak.

“It is a much needed service to the cause of Christ.”

— **Jimmy Evans, Marriage Today/Trinity Fellowship Church**

A Learjet that had made a business trip to Dallas was traveling back to Amarillo empty. Upon hearing of Pastor Jimmy Evans and wife Karen's travel need, Ministry Wings Aviation connected them with the plane for a lift home after a week of ministry work in the Dallas area.

Here's what others are saying:

“As an aircraft owner, I'm well aware that our flights aren't always as efficient as you'd hope. Ministry Wings Aviation and Empty Flight Plan give us a chance to make empty or incomplete flights more productive— while meeting real needs and helping do some good in the world.”

— **Jerry Hodge, Business Jet Owner /Maxor National Pharmacy Services Corporation**
